On November 26, 2012, the Board of Directors authorized and shareholders holding a majority of our outstanding voting capital stock (the "Majority Shareholders") of Sylios Corp (the "Company") have approved an amendment to the Articles of Incorporation (the "Amendment") which was filed with the Secretary of State of Florida. Pursuant to the Amendment, the Company increased its authorized capital to authorize the issuance of 9,000,000,000 shares of common stock, par value \$0.001.

On May 8, 2012, the Board of Directors authorized and shareholders holding a majority of our outstanding voting capital stock (the "Majority Shareholders") of Sylios Corp (the "Company") have approved an amendment to the Articles of Incorporation (the "Amendment") which was filed with the Secretary of State of Florida. Pursuant to the Amendment, the Company increased its authorized capital to authorize the issuance of 3,600,000,000 shares of common stock, par value \$0.001.

9. Any past, pending or anticipated stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization

On September 12, 2017, the Company's wholly owned subsidiary US Natural Gas Corp KY ("KY")(hereinafter the "Company") entered into a Letter of Intent with TerraTech, Inc. ("TTECH"), a corporation formed under the laws of the State of Texas. Under the terms of the LOI, the Company will acquire TTECH through an Agreement and Plan of Share Exchange. KY will file Amended and restated Articles of Incorporation with the State of Florida to increase the number of Authorized shares of common stock to 500,000,000 and authorize the issuance of 5,000,000 shares of Preferred stock. The Company will issue 330 shares of its common stock for each share of common stock outstanding for TTECH. Currently, TTECH has 100,000 shares of common stock outstanding, thus the Company will be required to issue 33,000,000 shares of its common stock to the holders on TTECH'S common stock. KY and TTECH entered into an Agreement and Plan of Share Exchange dated September 22, 2017 and the Closing occurred on September 28, 2017. TTECH became a partially owned subsidiary of Sylios Corp. Steven Terrell,

the founder of TTECH, will remain the sole officer and director. During the 4th Quarter of 2017, Sylios Corp will file to spin-off TTECH through a stock dividend

On September 1, 2017, Sylios Corp ("Sylios") filed a corporate action with the Financial Industry Regulatory Authority ("FINRA") to effect a partial spin-off of its wholly owned subsidiary, AMDAQ Corp, through a stock dividend. On September 29, 2017, Sylios received notification from FINRA that they had received the necessary documentation to process the corporate action requested by Sylios and its transfer agent, Pacific Stock Transfer. The Record Date for the spin-off was September 15, 2017 with a Payment Date of October 2, 2017. For additional information, please see the Company's website at www.amdaq.com/dividend.html.

On August 24, 2017, the Board approved the filings for the spin-off of its wholly owned subsidiary, E 2 Investments, LLC ("E2"). On August 25, 2017, the Company filed a Reinstatement, Notice of Conversion and Articles of Incorporation for E2 with the State of Florida. Under the Articles of Incorporation, E 2 shall be authorized to issue two classes of stock. The first being Common stock of which it shall be authorized to issue 250 million shares. The second being Preferred stock of which it shall be authorized to issue 5 million shares. The Record date for the spin-off of AMDAQ is set at September 15, 2017. On August 21, 2017, the Company's wholly owned subsidiary E 2 Investments, LLC ("E2")(hereinafter the "Company") entered into a Letter of Intent with AMDAQ LTD ("AMDAQ"), a corporation formed under the Registrar of Companies for England and Wales. Under the terms of the LOI, the Company was to file documents with the State of Florida to convert the Company from a limited liability company to a Florida for-profit corporation, file Articles of Incorporation and a name change to AMDAQ Corp. Each of the required filings was completed on August 25, 2017 and is now effective with the State of Florida. The Company issued 15,000,000 shares of common stock in exchange for AMDAQ'S 100 ordinary issued and outstanding shares at Closing. In addition, the Company received 1,000,000 AMDAQ tokens which represents all of the AMDAQ mined Ethereum tokens. The Company and AMDAQ entered into definitive documents on August 28, 2017 and the Closing occurred on September 1, 2017.

Effective March 10, 2017 (Payment Date), in connection with a partial spin-off of The Greater Cannabis Company, Inc ("GCC"). from the Company, GCC issued a total of 26,905,969 shares of its common stock. 5,378,476 shares were issued to the Company (representing 19.9% of the issued and outstanding shares after the spin-off) and 21,527,493 shares were issued to the stockholders of record of the Company on February 3, 2017 (Record date) on the basis of one share of GCC common stock for each 500 shares of the Company's common stock held (representing 80.1% of the issued and outstanding shares of GCC's common stock after the spin-off). Please see **NOTE T- GCC SPIN-OFF** of the Company's unaudited September 30, 2017 Quarterly Report for further information.

Effective upon the payment Date, GCC was no longer a wholly owned subsidiary of the Company. Mr. Anderson, the Company's current President and Chairman, will serve as the interim President of GCC until additional key personnel are retained.

On April 14, 2014, the Company filed an Amendment to its Articles of Incorporation with the State of Florida Division of Corporations for a name change to Sylios Corp. On

April 25, 2014, the Company filed the appropriate documentation with the Financial Industry Regulatory Authority ("FINRA") to effectively change the name of the publicly traded entity from US Natural Gas Corp to Sylios Corp. The name change was effective on June 20, 2014. The Company's new Cusip number associated with the name change is 871324 109.

On November 24, 2014, the Company filed an Amendment to its Articles of Incorporation increasing the Authorized number of common shares from 5,000,000,000 to 9,000,000,000. No changes were made to the Company's Preferred share structure.

On August 21, 2014, the Company filed an Amendment to its Articles of Incorporation increasing the Authorized number of common shares from 2,000,000,000 to 5,000,000,000. No changes were made to the Company's Preferred share structure.

On August 12, 2013, the Company effectively completed a 1:300 reverse stock split of its common stock.

On July 19, 2013, the Company filed an Amendment to its articles of Incorporation reducing the Authorized number of common shares from 9,000,000,000 to 2,000,000,000 and to effectively reduce the number of common shares outstanding through a 1:300 reverse stock split.

On May 28, 2010, the Company received notification from the appropriate state agencies that the acquisition of Wilon Resources by the Company was effective. On June 3, 2010, final approval was given by FINRA for the share exchange between the Company and Wilon Resources. The Company issued one share of common stock for each share of Wilon stock outstanding (49,207,973 shares) plus one warrant to purchase an additional share exercisable for a period of 5 years from the issue date. In July 2010, the Company canceled 1,000,000 shares of common stock relating to the Wilon acquisition. These shares were owned by the Company. The Company's common stock at June 3, 2010 had a value of \$.035 per share making the acquisition price \$1,687,279.

The Company accounted for the business combination using the purchase method. The estimated fair market value of Wilon's net assets (assets less liabilities) was recorded at the value of the acquisition price of \$1,687,279. Management reduced its original estimate of the fair market value. This reduction in the estimate had no effect on the recorded amount of the transaction as the excess fair market value over the acquisition price reduced the recorded value of oil and gas properties and equipment. The oil and gas properties consist of 115 natural gas wells, 12,000 acres of mineral rights leases and the gathering system interconnecting the wells. The Company intends to retain a third party to complete a Reserve Report covering the 12,000 acres located in Wayne County, West Virginia substantiating proven and unproven wells. The estimates used by the Company in recording the acquisition could change significantly pending the valuation results of the third party.

10. Any delisting of the issuers securities by any securities exchange or deletion from the OTC Bulletin Board

There has not been any delisting of the issuers securities by any securities exchange or deletion from the OTC Bulletin Board.

11. Any current, past, pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations and any current, past or pending trading suspensions by a securities regulator. State the names of the principal's parties, the nature and current status of the matter, and the amounts involved

From time to time, we may be a defendant and plaintiff in various legal proceedings arising in the normal course of our business. We are currently not a party to any material pending legal proceedings or government actions, including any bankruptcy, receivership, or similar proceedings. In addition, management is not aware of any known litigation or liabilities involving the operators of our properties that could affect our operations. Should any liabilities be incurred in the future, they will be accrued based on management's best estimate of the potential loss. As such, there is no adverse effect on our consolidated financial position, results of operations or cash flow at this time. Furthermore, management of the Company does not believe that there are any proceedings to which any director, officer, or affiliate of the Company, any owner of record of the beneficially or more than five percent of the common stock of the Company, or any associate of any such director, officer, affiliate of the Company, or security holder is a party adverse to the Company or has a material interest adverse to the Company.

Item 6: Business of Issuer

Sylios Corp (f/k/a US Natural Gas Corp) ("Sylios", the "Company", "we", "us", or "our") was organized as a Florida Corporation on March 28, 2008 under the name of Adventure Energy, Inc.

Sylios Corp is a holding corporation, which through its subsidiaries, has operations engaged in the exploration and development oil and natural gas properties, investments in equities and corporate debt and the development of products utilized for the medical and recreational marijuana industry.

Our operations are currently divided amongst five wholly owned subsidiaries, US Natural Gas Corp KY ("KY"), US Natural Gas Corp WV ("WV") (formerly Wilon Resources, Inc.), AMDAQ Corp (f/k/a E 2 Investments, LLC) ("AMDAQ"), SLMI Options, LLC ("SLMI").

Our primary SIC code is 1311. The Company is not now and has never been a shell.

Item 7: The nature of the products and services offered

US Natural Gas Corp WV:

US Natural Gas Corp WV's ("WV") operations were based in Wayne County, West Virginia and primarily concentrated on the production of commercially viable natural gas. On July 31, 2014, the Company and Bayport International Holdings, Inc. ("Bayport") closed on the Asset Purchase Agreement entered into between the companies on July 9, 2014. Included within the assets sold by the Company were certain leases covering mineral rights, oil and natural gas wells, certain

right of ways and ancillary facilities constructed by the Company for the delivery of natural gas in West Virginia. Upon completion of the transaction with Bayport, the Company had no remaining leases, wells or activity in West Virginia. Please see **NOTE S - DISPOSITION OF OIL AND GAS PROPERTIES** of the Company's September 30, 2017 Quarterly Report filed with OTC Markets for further information.

US Natural Gas Corp KY:

US Natural Gas Corp KY ("KY"), a wholly owned subsidiary, concentrates on oil producing activities mainly in the counties of Green, Hart, Adair, Russell, Edmonson, and Monroe in Kentucky where the Company has approximately 4600 acres under lease. On average, KY maintains a 95% working interest and 83% net revenue interest in each well. To date, KY has 19 wells under bond of which 9 are currently producing commercially viable crude with minimal revenue.

On September 5, 2012, the Company entered into an Asset Purchase Agreement with Madison Brothers Investments, LLC for the sale of certain oil producing assets located in Edmonson County, Kentucky. These assets have been previously referred to as the "Pine Grove Project" throughout the Company's previous press releases and filings with the Securities and Exchange Commission. Under the terms, the Company is to convey via deed, assignment, and/or transfer, twenty five equipped oil wells, two water injection wells, and five oil and gas leases. The 182 acres of mineral rights purchased by the Company in the Purchase transaction were sold to a non-affiliate third party in a separate transaction. The transaction was finalized and fully funded on September 13, 2012. Terms of the transactions were not disclosed.

In July 2011, the Company announced the initiation of a new natural gas development project in Whitley County, Kentucky. To date, the Company has acquired two wells capable of producing natural gas and is in discussions to acquire five to seven additional wells. The Company has reached an agreement with Magnum Hunter Production for the transmission of the Company's produced natural gas to its sales point. The Company has elected to place any further development of these leaseholds until natural gas pricing improves.

Our business strategy is to economically increase reserves, production, and the sale of natural gas and oil from existing and acquired properties in the Appalachian Basin and elsewhere, in order to maximize shareholders' return over the long term. Our strategic location in Kentucky enables us to actively pursue the acquisition and development of producing properties in that area that will enhance our revenue base without proportional increases in overhead costs.

We expect to generate long-term reserve and production growth through drilling activities and further acquisitions. We believe that our management's experience and expertise will enable us to identify, evaluate, and develop natural gas projects.

We have acquired and intend to acquire additional producing oil and gas property rights where we believe significant additional value can be created. Our Management is primarily interested in developmental properties where some combination of these factors exist: (1) opportunities for long production life with stable production levels; (2) geological formations with multiple producing horizons; (3) substantial exploitation potential; and (4) relatively low capital investment production costs.

AMDAQ Corp (f/k/a E 2 Investments, LLC):

AMDAQ Corp (f/k/a E 2 Investments, LLC) is a holding corporation that was formed in Florida on July 20, 2009. The Company's business model from inception through August 31, 2017 concentrated on alternative investments including but not limited to:

- Buying and selling of domestic equities
- Purchase of third party debt issued by publicly traded entities
- Purchase of mineral rights
- Direct Stock Purchase participation with other publicly traded entities
- Consulting capacity
- Purchase of Royalty or Working Interests in Crude and Natural Gas Producing wells

On September 1, 2017, the Company acquired AMDAQ Ltd, a corporation formed under the Registrar of Companies for England and Wales, in order to diversify its business model to enter into the rapidly expanding sectors of blockchain technology and digital assets.

In addition to the Company's previous business model, the addition of AMDAQ Ltd will allow the Company to further develop the AMDAQ Market Place. AMDAQ is a revolutionary securitization platform that allows the ownership of both tangible and intangible illiquid assets to be evidenced and transferred using the Ethereum Blockchain

Unlike the more limited concept of an Initial Coin Offering ("ICO"), AMDAQ provides the infrastructure for the administration of pre-existing and potential ownership of both tangible and intangible assets and its adaptable structural utility can be used in parallel to any equity fundraising mechanism.

AMDAQ allows both the documented ownership and transfer of assets for which there is no established registration process and the sub-division of ownership interests in otherwise registered assets where transfer processes may be expensive/cumbersome and/or trigger taxes and other expenses.

Examples of assets that can be efficiently held include:

- Co-owned portfolios of real estate interests
- Subdivided interests in a single real estate asset
- Portfolios of art and collectibles
- Commodities
- Cryptocurrency and fiat currency portfolios
- Unincorporated business ventures

Using the AMDAQ platform, assets can be titled in a Smart Contract with ownership interests evidenced by ownership of an associated Ethereum token. The Smart Contract will provide not only the rules as to transfer of ownership but also automated voting mechanisms for each specific situation that requires governance decisions.

Where required by law, assets can be titled using a traditional "trustee" structure with the trustee delegating administration to the Smart Contract. The initial AMDAQ token (or "DAQ") is a fully ERC20 compatible Ethereum Token that can be held in an Ethereum Wallet. Only 1,000,000 AMDAQ tokens were mined and the token is designed so that no more can ever be mined.

SLMI Options, LLC:

On September 4, 2009, the Company entered into a lender acquisition agreement with SLMI Holdings, LLC, a Nevada Limited Liability Company. Through this agreement, the Company acquired SLMI Options, LLC. The sole purpose of the acquisition of SLMI Options, LLC was to hold three commercial notes issued by Wilon Resources, Inc., (formerly "Wilon Resources of Tennessee, Inc.')

Item 14: Management’s Discussion and Analysis or Plan of Operation

Plan of Operation

We began operations on March 28, 2008 and are engaged in the oil and natural gas industry focusing on exploration, development, and production. We operate oil and gas wells in which we own the majority of the working interest, and are presently re-working and completing oil wells on our current leaseholds in Kentucky. We maintain leaseholds covering approximately 4,600 acres in South Central Kentucky and are presently expanding our leasehold interests. Our first revenue from production was generated in July 2009. The Company has incurred losses of \$10,916,023 for the period March 28, 2008 (inception) through September 30, 2017

and has negative working capital balance aggregating \$2,421,911. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's **operational subsidiaries:**

1. **US Natural Gas Corp KY ("KY")** Our Kentucky properties, operated by our wholly owned subsidiary KY are focused in the South Central region of the state encompassing the counties of Allen, Monroe, Metcalfe, Green, Hart, Adair, Edmonson and Barren. We currently have the majority Working Interest in 16 oil wells of which 9 are currently in production. We also maintain the majority Working Interest in 3 previously producing natural gas wells in Kentucky. One well located in Eastern Kentucky is currently shut-in due to issues with the receiving transmission pipeline. We anticipate that if we elect to expand our operations in this region, we can satisfactorily resolve this issue and place this well back into production. We have reached an agreement with Magnum Hunter for the transmission of natural gas produced from our two natural gas producing wells located in Whitley County, Kentucky. We maintain a majority working interest in each of these wells. Prior to placing these wells into production, we will need to complete the laying of a 1 ¼" extension of our gathering system to a tap into Magnum Hunter's line.

We expect to generate long-term reserve and production growth through drilling activities, re-entry and completion projects, and further acquisitions. We believe that our management's experience and expertise will enable it to identify, evaluate, and develop our oil and natural gas projects.

We continue to seek to identify oil and natural gas wells for possible acquisition. However, there can be no assurance that we will be able to enter into agreements for the acquisition of these oil wells upon terms that are satisfactory to the Company.

We expect to generate long-term reserve and production growth through drilling activities, re-entry and completion projects, and further acquisitions. We believe that our management's experience and expertise will enable us to identify, evaluate, and develop oil and natural gas projects.

2. **US Natural Gas Corp WV ("WV")** operations were based in the Butler District of Wayne County, West Virginia and were primarily concentrated on the production of commercially viable natural gas. WV operated 122 natural gas wells drilled from depths of 2100' to 5100' and produced from the Berea, Huron and Devonian Shale formations.

The Company's wells were previously shut-in from June 2005 to April 2010 due to a delivery constraint. WV entered into an agreement with a third party to allow for the purchase of its natural gas production on a firm capacity basis which management believes will remedy the prior transmission constraint.

On July 31, 2014, the Company closed on its Asset Purchase Agreement with Bayport International Holdings, Inc. for the sale of certain assets held by the Company in West Virginia. Please see **NOTE 5- DISPOSITION OF OIL AND GAS PROPERTIES** of the Company's unaudited September 30, 2017 Quarterly Report filed with OTC Markets for further information.

3. **AMDAQ Corp (f/k/a E 2 Investments, LLC):**

AMDAQ Corp (f/k/a E 2 Investments, LLC) is a holding corporation that was formed in Florida on July 20, 2009. The Company's business model from inception through August 31, 2017 concentrated on alternative investments including but not limited to:

- Buying and selling of domestic equities
- Purchase of third party debt issued by publicly traded entities
- Purchase of mineral rights
- Direct Stock Purchase participation with other publicly traded entities
- Consulting capacity
- Purchase of Royalty or Working Interests in Crude and Natural Gas Producing wells

On September 1, 2017, the Company acquired AMDAQ Ltd, a corporation formed under the Registrar of Companies for England and Wales, in order to diversify its business model to enter into the rapidly expanding sectors of blockchain technology and digital assets.

In addition to the Company's previous business model, the addition of AMDAQ Ltd will allow the Company to further develop the AMDAQ Market Place. AMDAQ is a revolutionary securitization platform that allows the ownership of both tangible and intangible illiquid assets to be evidenced and transferred using the Ethereum Blockchain

Unlike the more limited concept of an Initial Coin Offering ("ICO"), AMDAQ provides the infrastructure for the administration of pre-existing and potential ownership of both tangible and intangible assets and its adaptable structural utility can be used in parallel to any equity fundraising mechanism.

AMDAQ allows both the documented ownership and transfer of assets for which there is no established registration process and the sub-division of ownership interests in otherwise registered assets where transfer processes may be expensive/cumbersome and/or trigger taxes and other expenses.

Examples of assets that can be efficiently held include:

- Co-owned portfolios of real estate interests
- Subdivided interests in a single real estate asset
- Portfolios of art and collectibles
- Commodities
- Cryptocurrency and fiat currency portfolios
- Unincorporated business ventures

Using the AMDAQ platform, assets can be titled in a Smart Contract with ownership interests evidenced by ownership of an associated Ethereum token. The Smart Contract will provide not only the rules as to transfer of ownership but also automated voting mechanisms for each specific situation that requires governance decisions.

Where required by law, assets can be titled using a traditional "trustee" structure with the trustee delegating administration to the Smart Contract. The initial AMDAQ token (or "DAQ") is a fully ERC20 compatible Ethereum Token that can be held in an Ethereum Wallet. Only 1,000,000 AMDAQ tokens were mined and the token is designed so that no more can ever be mined.

Item 18: Purchase of Equity Securities by the Issuer and Affiliated Purchasers

During the quarter ended September 30, 2017, the Company acquired 0 shares of its common stock.

On May 21, 2015, the Board of Directors of the Company voted, at the request of Management, and approved an increase and extension to the January 1, 2011 Stock Repurchase Plan. The Company was previously authorized to repurchase up to Two Hundred Fifty Thousand No/100 Dollars (\$250,000) of its common stock in the open market or in privately negotiated transactions. The Company is now authorized to repurchase up to Five Hundred Thousand and NO/100 Dollars (\$500,000) for a period of two years from the date of the May 21, 2015 resolution. The repurchase program will be funded by the Company's available cash and may be commenced or suspended at any time or from time to time. The plan will continue as long as periodic management reviews determine it to be fiscally feasible and may be discontinued at any time.

On January 11, 2011, the Company's Board of Directors approved a share repurchase plan. Under terms of the plan, the Company is authorized to repurchase up to an aggregate of \$250,000 of its common stock over the next 12 months. Acquisitions of stock under the repurchase plan will be made from time to time at prices prevailing in the open market or in privately negotiated transactions as permitted by securities laws and other legal requirements, and subject to market conditions and other factors. The repurchase program will be funded by the Company's available cash and may be commenced or suspended at any time or from time to time. The plan will continue as long as periodic management reviews determine it to be fiscally feasible and may be discontinued at any time.
